

Bethany Center Cottages

The cottages on Lake Mary reach out from Saint James Chapel in a symbolic arc representing the open arms of hospitality with which you will be greeted at Bethany Center.

Six cottages, each with two floors, provide 53 private or semi private rooms. Each room is generously appointed with a queen size bed, private bath, desk, comfortable reading chair and telephone. In addition there is an extra single bed tucked away in each room to allow double occupancy. All cottages provide accommodations meeting ADA standards.

Inviting wrap around porches provide rocking chairs with views overlooking the lake, an excellent place to enjoy the serenity of our natural surroundings.

All cottages have a central gathering room for the use of those in the cottage. Each gathering room is equipped with a microwave oven, small refrigerator, coffee pot and ice maker. The gathering room also has an HDTV and DVD player with provisions for computer based presentations. The gathering rooms will comfortably seat 12-15 people in an informal setting.

A one mile walking trail follows the shore of Lake Mary. Gazeboes strategically placed along the path allow you to enjoy the charm of the natural setting from various vantage points. Each gazebo offers up to eight seats encouraging informal conversations or private meditation.
